

# Mingbo Ma

---

CONTACT INFORMATION	4130 Kelley Engineering Center Corvallis, OR, 97330	Email:: cosmmb@gmail.com Web: mingboma.com
RESEARCH INTERESTS	Machine Learning based Natural Language Processing Algorithms, especially Neural Networks based models for the applications in Sentimental Analysis, Sentence Classification and Question Answering. Also interested in Sparse Coding, Low-rank Analysis, Manifold Learning based face recognition and image classification models.	
EDUCATION	<b>Oregon State University</b> , Corvallis, OR, USA	<b>Sep. 2015 – present</b>
	<i>Ph.D student in Computer Science</i>	
	<b>The Graduate Center at CUNY</b> , New York, NY, USA	<b>June. 2013 – Aug. 2015</b>
	<i>Ph.D student in Computer Science</i>	
	<b>Advisor:</b> Liang Huang	
	<b>Northeastern University</b> , Boston, MA, USA	<b>Sep. 2012 – May 2013</b>
	<i>Ph.D student in Electrical Engineering</i>	
	<b>State University of New York at Buffalo</b> , Buffalo, NY, USA	<b>Jan. 2012 – Aug. 2012</b>
	<i>Ph.D student in Computer Science</i>	
	<b>Advisor:</b> Yun (Raymond) Fu	
	<b>Florida Institute of Technology</b> , Melbourne, FL, USA	<b>Aug. 2008 – May 2010</b>
	<i>Master of Science in Electrical Engineering</i>	
	<b>Advisor:</b> Georgios C. Anagnostopoulos	
	<b>Thesis:</b> “ Kernel-based Sammon Mapping for Dimensionality Reduction & Data Visualization”	
	<b>Jilin University</b> , Changchun, Jilin, China	<b>Aug. 2004 – July 2008</b>
	<i>Bachelor of Science in Telecommunication Engineering</i>	
RESEARCH EXPERIENCE	<b>Oregon State University / The Graduate Center at CUNY</b>	<b>June. 2013 – present</b>
	<i>Research Assistant</i>	<b>Supervisor:</b> Liang Huang
	<b>Topic:</b> <i>Deep Learning algorithm for Sentiment Analysis and Question Answering</i>	
	<ul style="list-style-type: none"><li>• Dependency tree-based Convolutional Neural Networks for sentiment and sentence classification.</li><li>• Proposed Convolution based model for Question Answering.</li><li>• Models used for NLP analysis includes Recursive, Recurrent, Convolutional Neural Networks and Long Short Term Memory.</li></ul>	

**SUNY Buffalo / Northeastern University**

**Jan. 2012 – June 2013**

*Research Assistant*

**Supervisor:** Yun (Raymond) Fu

**Topic:** *Locality Constraint Subspace Learning*

- Proposed a model for sparse graph embedding with locality sparse coding constraint.
- Formulate a model to choose the neighborhood for each locality automatically.
- Build the sparse graph embedding for face within each locality.

**Topic:** *Low-Rank Outlier Detection for Manifold Learning*

- Proposed a low-rank description for manifold learning.
- Proved each locally area of manifold can be approximated by a low-rank matrix in theory.

**Topic:** *Prototype Based Feature Learning*

- Proposed a prototype formation on image set for discriminative feature representation.
- Use prototype image sets as common reference to represent any image set.
- Proposed to use normal face to capture the discriminative information.

**Topic:** *Relative Max-Margin Feature Learning*

- Proposed a model to learning the max-margin feature relatively through reference basis.
- Adopted the traditional image classification pipeline to our model.

**Florida Institute of Technology**

**Aug. 2008 – May 2010**

*Research Assistant*

**Supervisor:** Georgios C. Anagnostopoulos

**Topic:** *Kernel-based Sammon Mapping for Metric Representations*

- Proposed a generalization of Sammon's mapping.
- Formulate projections as linear combinations of appropriate kernel functions.
- This approach subsumes the classical Sammon mapping, Radial Basis Function, Multi-layer Perceptron based approach as special cases.

**Research Experiences for Undergraduates (REU) Program**

**May 2009 – Aug. 2009**

*Graduate Mentor and Team Lead*

**Supervisor:** Georgios C. Anagnostopoulos

- Team lead, give a guidance of research and offer a theorem support.
- Finished a technique report.
- A demo relates to Multidimensional Scaling technique was created by GUI in matlab.

INDUSTRIAL  
EXPERIENCE

**Authentec Inc.**(acquired by Apple Inc. in 2012), Melbourne, FL, USA **May 2010 – Jun 2011**

*Algorithm Engineer*

Developed imaging algorithms to enhancement for finger detection, fingerprint image and reconstruction performance, The techniques relate to image processing, metric analysis, real time signal processing and filter design.

**Supervisor:** Michael Boshra & Qiang Liu
